Pure American Wines.

The Juice of the Grape, neither Drugged, Liquored nor Watered.

Dr. R. T. Underhill, of Croton Point, New York, who died in 1871, was one of the best known of our American Pioneer Viniculturists, and the wine from his Croton Point Vineyards attained a national reputation. At his death, however, owing to the extreme temperance views entertained by some of the heirs, his entire stock of wine was withdrawn from the market, and has since remained in the vaults of the estate at Croton Point. For the same reason no wine has been made on the Estate since the death of Dr. Underhill, the magnificent grapes themselves being sent to the market, or (as they have been sometimes) left to decay upon the vines. Now, however, for the purpose of closing the accounts of the Executors, the entire stock of wine left by Dr. Underhill, and which has now become very old and mellow, has been placed for sale in the hands of Messrs. H.K. and F. B. Thurber & Co., New York, who in turn are appointing druggists as agents to supply the retail demand. Dr. Underhill was a man of unusual professional and scientific attainments; knowing what was good and how difficult it was to procure wine of uniform purity and excellence, he became an enthusiast on the subject, and devoted an astonishing amount of time and capital to this pursuit. His ruling idea being to produce a wine which should be the *pure juice of the grape, neither drugged, liquored nor watered*, and which could be absolutely depended upon for sacramental and medicinal purposes, where purity was a *sine quâ non.*

He not only succeeded in this, but produced a wine of delicious flavor which (except where persons have become wedded to the sweetness and somewhat different flavor of foreign wines) has been generally preferred to wines of foreign growth—a multitude of testimonials being received by him from persons of the highest professional and social standing; indeed, no wine, either domestic or foreign, has ever been vouched for and commended as this has been. The only obstacle to a very large consumption was its high price, made necessary by the high cost of labor in this country, and high rate of interest on the capital necessary to "carry" it while acquiring age and mellowness. When alive Dr. Underhill obtained high prices for wine of three to five years age, and at the same rate, with interest at seven per cent. compounded annually since his death in 1871, present prices would range from ten to eleven dollars per gallon, or say thirty dollars per dozen

In arranging with his Estate for its sale, however, Messrs. Thurber & Co. stipulated that, regardless of cost, prices must be fixed in accordance with the times, and consequently these wines, 7 to 13 years old, are furnished for $3.25 to $4.50 per gallon.

Dr. Underhill's little pamphlet, which may be obtained from Messrs. Thurber & Co., cor. West Broadway and Reade Sts., New York, or any of the sub-agents, gives some particulars in regard to the production of these wines, which will be found very interesting.

TIFFANY & COMPANY, Union Square, New York, Gold and Silversmiths, and makers of Ecclesiastical Plate and Jewels, Household Silverware and metal decorations.

The public are invited to inspect the extensive stock of artistic goods without feeling an obligation to purchase.

RACK AND RUIN

Will overtake the teeth if they are not cleansed every day. Therefore be wise in time, ere your teeth are irretrievably gone and the beauty of the mouth disfigured, and hasten to burnish and invigorate them with that delightful antiseptic dentifrice,

FRAGRANT

SOZODONT

the use of which confers radiant whiteness upon the teeth, and defends them from premature destruction. Thousands use it and commend it as infinitely superior to the many tooth pastes, &c., now in vogue. SOZODONT is a safe and agreeable bontanical preparation, and free from any deleterious properties. It renders the gums hard and rudy, and imparts the fragrance of odorous blossoms to the breath.

Tontine Savings Fund Plan

OF THIS SOCIETY,

A person may obtain life insurance at ordinary rates during the productive years of his life, and afterward withdraw, in cash, large sums of money, making the insurance a profitable investment.

The Report of the Superintendent of the Insurance Department of the State of New York (made after an examination into the condition of the Society), concludes as follows:

"The examination has been of the most thor-
"ough and searching character, and the Superin-
"tendent believes that no corporation doing an
"insurance business has been subjected to severer
"tests than this Society has, nothing having been
"taken for granted, but every item, both of assets
"and liabilities, conscientiously and exhaustively
"scrutinized. To accomplish this a force of ten
"persons, under the Chief Examiner of the De-
"partment, has been steadily engaged for nearly
"three months. The Superintendent is much
"gratified at being able to state that the result of
"this investigation shows the complete solvency
"of the Institution; and that if the same energy
"and ability are displayed in its management and
"conduct from this time, as in the past, a career
"of solid commercial prosperity is before it."

The name of the Spring is on the cap, also the year of bottling.

Drink before breakfast, also at table, pure or with wine.

The Vichy Waters have no rival in the world as purely medicinal waters, and the public should not be misled by the assertion that a water possessing nothing but a charge of carbonic acid gas is superior to them. Croton would do just as well.

THE METROPOLITAN
Plate-Glass Insurance Co.
OF NEW YORK,

CASH CAPITAL, $100,000, invested in Gov. Bonds.

PRINCIPAL OFFICE:

61 LIBERTY STREET, NEAR BROADWAY, N. Y.

The object of the Company is to insure Plate Glass of every description against loss by accident, whether used in windows, panels, enclosures, pilasters, show cases, &c., including embossed, colored or engraved glass, embracing all Plate Glass required for store purposes, offices, churches, private dwellings, hotels, public halls, saloons, steamboats, &c., also mirrors in every location.

This secures all persons, owners of Plate Glass and Mirrors, from loss or damage consequent upon its accidental breakage, or while in transit from the importer or otherwise to the place of delivery.

From the record of our losses since we commenced business to this date, it is fully demonstrated that no legitimate Company can do our kind of insurance for less premiums than we are now receiving at the established rates on the present gross Importers' Price Lists of June 10, 1876.

The Company have on sale, at retail, Plate Glass, to which they invite the attention of glaziers and others.
